

The Markets

The wheat market has been strongly affected by the government crop estimates. Prices are tending downward and there is practically no demand. It is estimated the United States will have 240,000,000 bushels for export and Canada will have at least half that much. Crop estimates from Germany, France, Austria-Hungary and in fact from nearly all Europe indicate a light yield, and that all will have to look to the new world for its supply.

Hops remain unchanged as to price with little doing in the way of contracts. Such as are made are between 14 and 15 cents. Eggs are going steadily up, owing to the season being past its summit and the supply is on the down grade. Prices range from 22 cents for fresh, to 24 for closely candled. A 30 cent price in the near future will not be surprising. Vegetables are in good supply and the demand is strong. Berries are in abundance.

RYAN'S PUBLIC MARKET IS NEARLY COMPLETED

R. R. Ryan's public market building is nearly ready for occupancy. The outside work was completed some time ago and the inside is being rushed. Mr. Ryan said yesterday afternoon that the building would be ready by the opening of the Cherry Fair, a week from Thursday. It will be opened for business Saturday the 27th, and arrangements have been made for a good attendance, a number of farmers having promised to be there with their products.

For the first month the use of the building will be free, and Mr. Ryan asks every farmer in the county, that can do so, to take an interest in the market and make it a grand success. He will give prizes to the school children and to the farmers' wives for displays, but the details of this feature have not yet been worked out. The building is 194 by 167, the lower floor being all in one big room. The upper story has six of fices in the front of the building, fitted up with electric lights and all modern conveniences, and back of this is a hall and a big one, 104 by 137 feet.

Mr. Ryan is anxious that the farmers make a display during the Cherry Fair and will do all in his power to assist them in making such displays. He calls attention to the fact that there will be hundreds of strangers here during the Cherry Fair and that it would be fine advertisement of the country's products to have them on display at that time, and he is right.

CATHOLIC TICKET VICTORIOUS.
Rome, June 16.—Ex-Mayor Nathan, a recent visitor to the United States in connection with the Italian exhibit at the San Francisco fair, and head of the anti-clerical ticket in the city election held here Sunday, was badly beaten, as was shown by the count of votes completed today.

The Catholic and monarchist ticket was victorious from top to bottom, Prince Colonna heading the list with 6,000 more votes than Nathan.

The latter had only 85 more votes than the lowest candidate on the beaten ticket.

EDMUNSON GETS 20-DAY "JOLT" FROM THE JUDGE

Legal Talent of City Fights Shy of Case of Bootlegger, Who Finally Pleads Guilty to Charge.

Charles Edmundson, the young man who was arrested last Saturday night for bootlegging, pleaded guilty in Judge Elgin's court this morning and was sentenced to serve 20 days in the city bastille.

Either the law business in Salem is on the boom or Edmundson was unable to convince anyone that he had a chance to fight his case, for not a lawyer would come to his rescue. The defendant made several attempts to obtain legal aid, but the Salem attorneys fought shy of taking interest in the case. Edmundson was allowed twenty-four hours in which to enter his plea and, failing to get a lawyer, told the court his morning that he was guilty as charged.

The arresting officer, Jack White, had indisputable evidence on Edmundson. The man could not have escaped the charge in any manner, owing to the fact that both Patrolman White and the man who bought the booze were on hand to testify against him, and to make the case more secure for the city, the officer had in his possession the marked piece of money which he gave the stool pigeon to make the purchase.

Edmundson believed that he got off rather easy, saying that the "jolt" was just a little one.

Bill in Congress Provides for the Purchase of the Municipal Car Systems of District of Columbia.

Washington, June 16.—Government ownership will spread like dew throughout the United States if the District of Columbia takes over and operates its street car system," was the prediction today of Congressman Cresser, author of the house bill providing for the district's acquisition of its trolley lines at a cost of \$50,000,000 to be paid to the two corporations which own them.

"The street railway business," Cresser continued, "would be the greatest lesson the district will ever teach the people of the country."

"We will surprise the United States by showing how successful government ownership can be—by demonstrating to all the advantages of municipal ownership."

The congressman gave it as his opinion that the experiment's benefits will prove greater than the majority even of its friends expect, giving far better service than at present for much lower fares.

A number of lawmakers have promised Cresser their support, among them Congressman Bryan of Washington, who declared he would fight throughout the rest of the session for the bill.

AUTOMATIC PISTOL CAUSES DEATH OF 5-YEAR-OLD CHILD

Tacoma, Wash., June 16.—Fearing that he would be accused, Stanley Gilmore, aged 8, hid the body of his little 5-year-old brother, Hubert, who had shot and killed himself, in a box at his father's home at Wilkeson, and did not disclose the tragedy for several hours. Word of the shooting reached here today.

Hubert was playing with an automatic pistol yesterday noon when it was accidentally discharged, the bullet entering the child's head and causing almost instant death.

Frightened at the sight of his blood-covered baby brother, Stanley picked up the limp and lifeless body and laid it on the bed. Then he carefully covered it with blankets. When his father returned home Stanley denied knowledge of the whereabouts of Hubert. It was late last evening that the little fellow broke down and sobbed out the story of the tragedy to his father, H. O. Gilmore, who is superintendent of the Wilkeson Stone company.

The boy's mother was absent from home, having been called to Aberdeen by the illness of a relative.

POLICE LOOKING FOR MAN WHO RAN DOWN MOTORMAN

Oakland, Cal., June 16.—The police were looking today for the automobile driver who ran down and killed Jerome Anderson, motorman for the Oakland Traction company, early today.

The only clue was furnished by a garage attendant who said an automobile owned by M. J. Layman was brought in just before 2 a. m. by Layman's negro chauffeur, Harry Varkin, with blood on the fender and a broken headlight. The attendant said the chauffeur told him he had run in to and killed a horse.

Layman certainly was not with the machine, but the police were looking for Varkin to question him.

SUICIDE CLUTCHES LETTER.

San Francisco, June 16.—A letter from his wife, written on their first wedding anniversary, clutched in his hand, the dead body of Lawrence A. Lewis, 35 years old, was found today in his room here. Mrs. Lewis' refusal to return to him is believed to have driven him to suicide.

In her letter, Mrs. Lewis, who is living with her parents in Dinuba, declared she would devote the rest of her life to her unborn child.

BLINDED AND PARALYZED IN AUTO, PRIEST MAY RECOVER

Santa Ana, Cal., June 16.—Stricken with blindness and partial paralysis while driving an automobile along a country road, the Rev. Father Noonan, of San Diego, was recovering today. He was gradually gaining control of the paralyzed parts, but Dr. C. D. Ball, his physician, refused to predict whether he will recover his sight.

INDIAN GIRLS HAVE LARGE CANNING CLUB

The full membership of the Canning club at Chemawa totals 173 girls and has the distinction of being the only canning club in United States whose membership is made up entirely of Indian girls. While canning clubs are general throughout the United States and their organization has been popularized by the department of agriculture it is seldom that a club the size of the Chemawa club can be organized except in a school where there are a large number of girls over the age of 14 and capable of taking the proper interest in the canning demonstrations.

The girls are taught steam pressure canning and its general economy and improvement over the older methods which have been followed by house wives. The Salem high school has a canning club with 38 members and Cloverdale district one with 12 members.

The following is the club membership:

BIG BOULDERS PLUNGE

(Continued from Page One.)

Waves Phelps shook him, reviving him. "He's said it from, my shoulder is," he said. And he felt unconscious.

"He's and companion carried him down to the snow line, where they made an examination and concluded he was dead. They hurried to the foot of the mountain, met four men coming up and told them about Graham. These men came up to Graham and found him alive but unconscious. They carried him to the bottom, where he revived sufficiently to be held on a saddle horse later walking a short distance to a automobile at Mazanita Lake.

"He was taken to Viola by automobile and has now been moved to Redding. The physician says he has a badly fractured collar bone but will undoubtedly recover."

PAPER SUSPENDS PUBLICATION.

Philadelphia, Pa., June 16.—Frank A. Munsey's Philadelphia newspaper, the Evening Times, suspended publication today.

"The Times never passed out of the experimental stage," said Munsey, in an explanation, "and there is no evidence in sight to indicate that it would do so in the near future."

"The Times has not worked out; that's all there is to it. Not every experiment is born to success."

ANARCHIST IS RIOT LEADER

EXILE BACKED BY THE PEOPLE.

Enrico Malatesta, Imprisoned in England for Libelling a Countryman and Deported, Heads a Demonstration Against the Government.

London, June 16.—News that Enrico Malatesta was a leading figure in the civil troubles which have been rending Italy for a number of days past caused a decided sensation here today among all who are acquainted with the celebrated agitator's extreme views.

Malatesta is an out and out anarchist. He was many years an exile in England but was finally found guilty of libelling another foreigner of professed opinions similar to his own, whom he accused of being a spy. For this offense he was sentenced to a short term of imprisonment and then to deportation.

What had become of him was not known here until he was heard from in Ancona as among those at the head of the Italian anti-government movement.

That he should be taking part in any campaign directed at the overthrow of a monarchy, or, for that matter, of a government of any kind, was thought, indeed, to be just what might have been expected. All accounts indicated, however, that he was playing a leader's part, from which it was inferred that his ideas must have the endorsement of his followers in the fight he was waging.

What observers of the situation were asking one another, must conditions be like in a country where those who opposed any government at all were numerous enough to have created so violent a commotion as has shaken Italy for a week past?

MERE MEMBERSHIP IN UNION DOES NOT CARRY LIABILITY

San Francisco, June 16.—Holding that mere membership in a local union did not make the defendants liable for the damage complained of, Judge Burroughs of Lassen county notified attorneys for both sides today that he had stricken out all claims for a money judgment in the findings submitted to him by attorney for the Pacific Gas & Electric company and asking more than \$87,000 damages against members of the Electrical Workers No. 151, for alleged unlawful acts during a strike last year against the company.

In his letter addressed to the lawyers for the plaintiff and defendants, Judge Burroughs says in part:

"I have stricken from the findings such portions as fines against those who do not take an active part, or in fact anyone in the unlawful acts complained of."

The decision is directly opposite to that of Judge Daniels in the Wheatland hog pickers case, which held that any member of a meeting was responsible for what another might do.

ROOSEVELT IS DINED.

London, June 16.—Major Arthur Lee, at whose Buckinghamshire country seat Colonel Roosevelt spent the week-end, gave a luncheon in the colonel's honor at his town house today, at which there were present a number of prominent liberal politicians.

WATSON ACCEPTS TERMS.

San Diego, Cal., June 16.—Red Watson, local lightweight now in San Francisco, accepted terms today for a 20-round boxing contest here July 14th. Lanch Cross is the opponent sought.
